

Recessed Model 2000S

FEATURES AND BENEFITS

HYGIENIC ACTIVATION

Electric sensor allows for instantaneous, touch-free operation preventing unwanted use. 24-hour auto-purge to assure a fresh water supply.

FILTER LIFE INDICATOR LIGHT

Indicator light will flash yellow when filter life is at 10% and flash red when replacement is necessary. Filter must be replaced to trigger reset.

VANDAL RESISTANT

Front panel allows quick access to internal components while hidden lock and hinges discourage vandals. 30-second time-out prevents unwanted use.

DURABLE FINISH

Sturdy 16-gauge Type 304 satin-finish stainless steel back panel and ABS plastic front panel can be easily cleaned and maintained while also resisting corrosion. Antimicrobial protection on key components.

ACCURATE LIFECYCLE CONTROL

Electronic LifeCycle control filter cartridge shuts off water flow when capacity is reached. Feature provides accurate usage and filter monitoring, ensuring great-tasting water with every activation.

COMMERCIAL BRITA® FILTRATION SYSTEM

2,500-gallon (9464 L) capacity with NSF/ANSI 42, 53 & 372 certifications for great-tasting water. The 1 micron filter uses activated coconut carbon block to reduce chlorine (taste and odor) and lead, and removes 99.99% of cysts.*

SUSTAINABLE ALTERNATIVE

This Brita® Hydration Station® can reduce as many as 36,000 standard 16.9 oz bottles each year.**
